RHEUMATOLOGY · OSTEOPOROSIS · INTERNAL MEDICINE

PHONE (757) 491-7359 · FAX (757) 491-9359

PRESCRIPTION REFILL POLICY

If in need of medication refills that have been prescribed by the doctor, please give your pharmacy 48-72 hours notice and they will contact our office.

We request refills to be handled during regular office hours, 8:30 am to 4:00 pm. Please plan on checking with your pharmacy before going to pick them up to be certain they have been filled. Some narcotic pain medications require a hand written prescription so please be prepared to have someone pick up the prescriptions at our office. Identification may be required. The doctor cannot call these in on the weekend and need to be requested only during normal office hours.

If you are requesting a written prescription for mail order, please confirm with us if you want to pick it up or have it mailed to you.

Please note that our providers at Arthritis Consultants of Tidewater may request reports from the Virginia Prescription Drug Monitoring Program before refilling or prescribing controlled substances as an effort to comply with Virginia regulations regarding appropriate use of narcotic agents.
